

LET'S TALK ABOUT DEMENTIA

A SYMPOSIUM FOR FAMILIES & CARERS

30 JUNE 2017

9.30 am - 3.30 pm
Kirribilli Club
11 Harbourview Cres
Lavender Bay

The vast majority of people living with dementia rely on their family for support. It's a role that brings joy, togetherness, personal growth and the reward of being able to help. It can also come with challenges, stress and strain.

This symposium brings together families and carers with experts working in the field. Both will contribute to our understanding, treatment and care of dementia and provide a forum for discussion and exchange of ideas.

30 JUNE 2017
